**INFORMATION DISCLOSURE STATEMENT AND NOTICE OF LITIGATION  
 UNDER MPEP 2001.06(C)**

In accordance with the provisions of MPEP 2001.06(c) and 37 C.F.R. §§ 1.56, 1.97 and 1.98, the Patent Office's attention is directed to the attached documents that were submitted in litigation between the Assignee of the present application and Chi Mei Optoelectronics Corp. ("CMO"), International Display Technology Co., Ltd. ("IDTech"), International Display Technology USA, Inc. ("IDTechUSA"), Westinghouse Digital Electronics, LLC ("Westinghouse"), and CTX Technology Corp ("CTX"). This litigation, which has been assigned Case No. C 04 4675 MHP, and is ongoing before the United States District Court for the Northern District of California, San Francisco Division, has been brought to the Patent Office's attention in a previously submitted *Information Disclosure Statement And Notice Of Litigation Under MPEP 2001.06(C)*. The attached list of documents include *Defendants' Preliminary Invalidity Contentions and Accompanying Document Production* (hereafter "*Invalidity Contentions*") and related materials.

As previously noted, in a complaint filed November 3, 2004, the applicant of the subject application, SEL, has asserted infringement of one or more of U.S. Patents 4,691,995; 5,995,189; 6,404,480; and 6,756,258. U.S. Patent 5,995,189 ("the '189 patent") is in the family of the subject application. More specifically, the subject application is a continuation of U.S. Application 08/768,066, which issued as U.S. Patent 5,995,189.

Under 35 USC §120, this application relies on the earlier filing date of application serial number 09/316,697, filed on May 21, 1999. The references identified on the attached list were submitted to the office in the prior application and, therefore, are not provided in this application.

It is respectfully requested that the Examiner carefully review this information and return an initialed copy of the attached PTO Form 1449 to the undersigned evidencing such consideration.

With respect to the *Invalidity Contentions*, the Examiner's attention is directed particularly to Section II (B) beginning on page 6, and Section III (B) beginning on page 9, including corresponding Exhibits B-1 through B-8, which are directed to the '189 patent. Also attached are copies of the references discussed in these sections, which are listed on the Form 1449 with citation numbers B1 to B8 corresponding to the Exhibit numbers B-1 to B-8 to facilitate review by the Examiner. The Examiner's attention is directed to the corresponding Exhibit for a discussion of the relevance of the references. Applicant has not submitted the Exhibits or reference copies for the remaining patents-in-suit because they were not identified in the Invalidity Contentions against the '189 patent. Should the Examiner wish to review a complete copy of these documents, such can be promptly provided at the Examiner's request.

Copies of the documents listed on the attached PTO Form 1449 were filed with an information disclosure statement in the parent application (U.S. 09/316,697) on December 22, 2005, and therefore, are not enclosed. However, a second set of copies can be provided upon request. It is respectfully requested that the Examiner carefully review this information and return an initialed copy of the attached PTO Form 1449 to the undersigned evidencing such consideration.

With regard to all the information in this information disclosure statement, applicant makes no representations herein regarding the materiality of the documents submitted herewith. Applicant is merely making these documents available to the Patent Office as a result of the contentions of the parties in the referenced litigation.
